About This Report

The 2020 OPM Federal Employee Viewpoint Survey (OPM FEVS) Agency Management Report (AMR) was designed to provide an overview of survey results, enabling agencies to easily identify issues and take action for improvement. The AMR can be helpful in providing a starting point for analysis of your agency's OPM FEVS results, acting as an agency overview before drilling down into specific components of the agency for a more in-depth analysis. This report also highlights important agency successes, which should be acknowledged. We encourage you to share both successes and areas for improvement with employees.

Changes to the 2020 Survey

The OPM FEVS looks a little different this year. In prior years, the survey included 71 standard core items, but the core items were reduced to 38 in 2020 for several reasons. Due to the COVID-19 pandemic, many agencies asked OPM to substantially shorten the 2020 survey to ease administrative burden and demonstrate sensitivity to employee situations. Congress and numerous agencies also asked OPM to include COVID-19 items to be responsive to changing conditions that might impact the needs of employees and agencies. Agency level results for the COVID-19 items can be found in Appendix B. The 2020 survey is the result of OPM's goal to be responsive to the needs of employees and agencies in this unprecedented pandemic.

Sections of the AMR

Respondent Overview

The Respondent Overview provides a snapshot of the characteristics of your employees who responded to the survey. Understanding who responded in your agency has a number of benefits. For example, this section allows you to better understand the ratio of seasoned employees who may be preparing for retirement to newer employees, which can be helpful in guiding your recruiting and retention efforts. It is important to keep in mind that this is a survey respondent overview, and these percentages may not match up exactly to your agency's total population characteristics.

Employee Engagement Index and Global Satisfaction Index

The Employee Engagement Index (EEI) and Global Satisfaction Index provide agencies with consistent metrics for measuring progress toward objectives. Benchmarks are included to provide insight into how your agency compares to others, and to encourage information sharing between agencies. For example, some of the top ranking agencies in the Employee Engagement Index may have suggestions on things that have and have not worked to engage their employees. Trends for the indices are also displayed.

Decision Aid

The Decision Aid is useful in easily identifying the most critical issues in your agency as well as recognizing where your agency has improved since 2019. The Decision Aid is divided into three sections to help you focus your attention on improvements and declines in your core item results since last year:

Increases contains items that increased since 2019

Decreases contains items that decreased since 2019

No Change contains items that did not change since 2019

Note: The Decision Aid only includes items 1-38, excluding item 11. See Appendix C for a breakdown of the Work-Life results for your agency.

About This Report (continued)

Appendices

The appendices give you an opportunity to more thoroughly understand your workforce by displaying item-level results.

Appendix A shows how well your agency scored relative to others in the government. Scanning the graphs can indicate how your agency is generally performing as well as help you identify particularly strong or weak areas.

Appendix B shows the COVID-19 Pandemic results for your agency.

Appendix C shows the Work-Life Program and demographic results for your agency.

Appendix D lists all agencies arranged by employee population size.

Understanding Your Results

When reviewing results, keep the guidelines below in mind. These guidelines were created to organize survey results in a way that is easier to digest and interpret.

Percent Positive is the sum of two positive categories (e.g., Strongly Agree/Agree)

Percent Negative is the sum of two negative categories (e.g., Strongly Disagree/Disagree)

Percent Neutral is the neutral category (e.g., Neither Agree nor Disagree)

Identifying Strengths, Challenges and Neutral Findings

65 percent positive or higher is considered a strength

35 percent negative or higher is considered a challenge

30 percent neutral or higher suggests uncertainty, presenting an opportunity for communication between managers and staff

Identifying Increases and Decreases

Movement up or down since the previous year is another important piece of information to consider when examining your results. Any increase or decrease in results can be important; however larger increases or decreases (generally 3 or more percentage points) may be a result of significant changes taking place within your agency and should be explored. Increases indicate positive change that should continue to be reinforced. Decreases, especially in areas considered mission critical, may call for appropriate action to initiate and support beneficial workplace improvements.

Other Reports

Governmentwide Management Report

This report provides an overview of the governmentwide results. The report includes item results, index scores, information on who responded to the survey, survey updates, and other special topics.

All Levels, All Indices, All Items Report

The purpose of this report is to provide a comprehensive summary of all OPM FEVS items and index scores for subagencies with at least 10 respondents in a Microsoft® Excel® spreadsheet.

Subagency Comparison Report

This report provides the results of all the offices that report to the same “parent” office. This report is only created when there are two or more sub-offices that both have at least 10 responses. Note: Subagency reports are only available for agencies that included organizational breakouts in 2020.

About This Report (continued)

Subagency Breakout Report

This report displays survey results for a single office so long as it has at least 10 responses. Note: Subagency reports are only available for agencies that included organizational breakouts in 2020.

Occupational Series Reports

This report allows for the comparison of occupational series and families at the agency and first level.

Demographic Comparison Reports

This report allows for the comparison of demographic subgroups at the agency level.

Annual Employee Survey (AES) Report

This report is a Microsoft® Excel® spreadsheet with a breakdown of agency and first level results. It also includes trends from previous OPM FEVS administrations.

Websites

OPM FEVS website

Agencies and the general public can access governmentwide data reports, as well as special topic reports produced from the OPM FEVS. This website includes results from the 2004 administration of the survey to the present. Access the OPM FEVS website at www.opm.gov/FEVS.

Public Release Data File (PRDF)

A public use data set is available for the OPM FEVS and can be requested by completing the form available at: www.opm.gov/fevs/public-data-file. Note: The 2020 PRDF will be available in the spring of 2021.

FedScope

OPM's FedScope is an online publicly available tool which allows users to access and analyze HR data from OPM's Enterprise Human Resources Integration (EHRI). Access this site using the following link: www.fedscope.opm.gov.

OPM FEVS Online Reporting and Analysis Tool

A password protected tool for agency points of contact to access agency-specific and governmentwide reports. In addition, agency users can develop customized reports that may be useful for data analysis and action planning. Questions and feedback for this online tool can be sent to EVS@opm.gov.

Respondent Overview

The Unique Characteristics of National Science Foundation Respondents

The figures below provide a snapshot of your survey participants. Except for military service and race, the most frequently selected response choice for each demographic item is highlighted in the first figure. The second figure displays the total breakdown of OPM FEVS respondents by generation. Please be aware that these results are based on survey respondents, which may differ from the characteristics of the total employee population of your agency.

<1% Generation Z (born 1997 or later)

Notes: The sum of percentages may not add to 100 due to rounding. For the full list of demographic item results, please see Appendix C.

Employee Engagement Index

Because the OPM FEVS is an assessment of organizational climate, the Employee Engagement Index (EEI) does not directly evaluate an employee's level of engagement. Therefore, instead of measuring aspects of engagement such as focused attention and dedication to completing assignments, this index concentrates on factors that lead to an engaged workforce (e.g., supporting employee development, communicating agency goals).

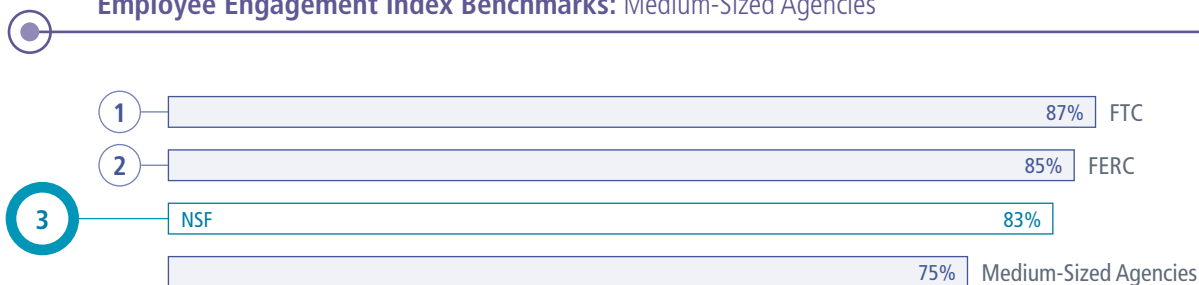

Below, you can see where your agency's EEI score ranks (out of 35 departments/large agencies, where Army, Army Corps of Engineers, Air Force, Navy, Marine Corps, and DOD 4th Estate are rolled into Department of Defense) and how it compares to the governmentwide average. The names of agencies with the highest EEI scores are listed to facilitate the sharing of information, such as best practices.

Employee Engagement Index Benchmarks: Governmentwide

In addition to looking at your agency's EEI results from a governmentwide perspective, the figure below allows you to compare your EEI results to those from similar sized agencies. Appendix D contains a listing of agencies by size category for your reference.

Decision Aid: Increases

Identifying Increases Since 2019

The items in this section are sorted by greatest to smallest increase in percent positive results. The items are sorted to allow you to quickly and easily identify where your agency has made the greatest improvements since last year.

Using the Legend Icons

The legend icons provide context for interpreting these results. While these items have improved, some may still be considered challenges (35% or more negative) or others may have reached the 65% or more positive mark and become new strengths this year. The “Top Pos/Neg” icons highlight where an item is either in the top 10 positive items or top 10 negative items for your agency.

37 Items Increased Since 2019

Strength

These items are 65 percent positive or higher

Caution

These items are 30 percent neutral or higher

Challenge

These items are 35 percent negative or higher

New Strength

These items became a new strength in 2020

Top Pos/Neg

These items are in your top positive or top negative

Decision Aid: Decreases

Identifying Decreases Since 2019

The items in this section are sorted by greatest to smallest decrease in percent positive results. The items are sorted to allow you to quickly and easily identify where results have dropped since last year.

Using the Legend Icons

The legend icons provide context for interpreting these results. When identifying the most critical decreases to focus on, it is important to check if these decreases are also identified as challenges (35% or more negative) or if they were previously identified as strengths that have fallen below the 65% or more positive threshold. The “Top Pos/Neg” icons highlight where an item is either in the top 10 positive items or top 10 negative items for your agency.

0 Items Decreased Since 2019

Decision Aid: No Change

Identifying Items That Have Not Changed Since 2019

Your percent positive results for these items have not changed since last year. These are items that your agency is maintaining, which can be either a positive, neutral, or negative finding. For example, an item with low percent positive results over several years is a strong indication of a need for focused action. You may also want to consider changing or updating your approach to addressing these issues if the item has been the focus of attention in the past. On the other hand, a trend of stable, high percent positive results is a finding that should be celebrated. Review each item carefully to determine whether there may be areas of concern for your agency.

Using the Legend Icons

The legend icons provide context for interpreting results. While these items have not increased or decreased, they still may be causes for celebration or concern depending on the percent positive, negative, and neutral results. The “Top Pos/Neg” icons highlight where an item is either in the top 10 positive items or top 10 negative items for your agency.

0 Items Did Not Change Since 2019

Appendix A: Item Results and Benchmarks

For each item, your agency's percent positive results are shown on a 0 to 100 scale, with the triangular arrow indicating where your agency falls. The gray bars represent the range of scores for the 35 departments and large agencies surveyed, where Army, Army Corps of Engineers, Air Force, Navy, Marine Corps, and DOD 4th Estate are rolled into Department of Defense.

To understand how well your agency performed compared to others, focus on the location of the triangle within the gray bar. If the triangle is toward the right side of the bar, then your agency was above average on that item. If it is at the right edge of the bar, then you had the highest percent positive results for that item. Additionally, you can numerically compare your percent positive results to the governmentwide average listed to the right of each item.

Appendix B: COVID-19 Pandemic Results

Items addressing the COVID-19 Pandemic were added to the 2020 OPM FEVS in order to be responsive to the needs of agencies and to assess employee experiences and challenges during this unprecedented time. Your agency's results are listed in this section.

When responding to the questions in this section, respondents were asked to think of their experiences during the COVID-19 pandemic (for much of the Federal Government, pandemic responses began in March 2020), unless otherwise instructed.
