

CONVERGENCE ACCELERATOR

EXPO

— 2021 —

CONNECT. TRANSFORM. DELIVER.

Expo 2021 highlights the National Science Foundation Convergence Accelerator's portfolio in an exhibition format, like a big science fair. Attendees will have the opportunity to see novel solutions across multiple convergence research track topics that are focused on national-scale societal challenges.

TRACK TOPICS

AI-Driven Data Sharing & Modeling

Future of Work

EcoManufacturing

Open Knowledge Networks

Quantum Technology

EXPO 2021 TAKEAWAYS

- **ENGAGE 35+ INNOVATIVE SOLUTIONS** focused on societal impact — Demos are scheduled every 15 minutes
- **EXPAND YOUR NETWORK** — Meet new people outside of your expertise and discipline
- **ACCELERATE SOLUTIONS INTO PRACTICE** — Support a funded team in accelerating their solution forward through new partnerships or investment
- **CONNECT WITH THE CONVERGENCE ACCELERATOR** — Learn about our unique differentiators, meet the team, and ask questions

ABOUT THE CONVERGENCE ACCELERATOR

Research is often driven by a compelling societal or scientific challenge; however, it may take the researcher community years to develop a solution. To deliver tangible solutions that have a nation- wide societal impact and at a more accelerated pace, the NSF Convergence Accelerator brings together multiple disciplines, expertise, and partnerships to develop solutions through a convergence research approach and innovation processes.

DETAILS

July 28 – 29, 2021 | 10 a.m. – 4 p.m. ET

LOCATION

Expo 2021 is virtual. A standard web browser and a stable internet connection are all you need to attend.

WHO SHOULD ATTEND

Expo 2021 is open to the public and media, but we are encouraging researchers, innovators, and tech and business practitioners from academia, industry, government, non-profits, and other communities to attend.

REGISTRATION

nsf-ca.vfairs.com

Registration is complimentary.
