

**REIMBURSABLE ACTIVITY**

The table presents incoming funding transferred to NSF from other agencies and obligated under reimbursable authority for scientific or engineering research or education, or the provision of facilities therefor. Outgoing interagency agreement funding is not represented in this table. NSF enters into agreements (including Memoranda of Understanding) with other U.S. government agencies, as authorized by the NSF Act, 42 U.S.C. 1870(c), and 42 USC 1873(f). These activities include jointly funded projects and programs, support of research operations and logistics, and access to NSF supported research facilities.
