MEMORANDUM

TO: National Science Foundation, Division of Acquisition and Cooperative Support  
National Science Foundation Acquisition Workforce

FROM: Patrick K. Breen  
Senior Procurement Executive

SUBJECT: FAR Class Deviation for FAR Part 40 in Support of Executive Order 14275 on Restoring Common Sense to Federal Procurement

PURPOSE: This memorandum approves a class deviation to Federal Acquisition Regulation (FAR) part 40 for purposes of implementing the Federal Acquisition Regulatory Council's (Council's) model deviation text to FAR part 40.

BACKGROUND: On April 15, 2025, the [Executive Order \(E.O.\) 14275 on Restoring Common Sense to Federal Procurement](#) was signed. Section 2 of the E.O. establishes the policy that the FAR "should only contain provisions required by statute or essential to sound procurement, and any FAR provisions that do not advance these objectives should be removed."

The FAR is being updated to:

- Remove language that is not required by statute
- Remove duplicative or outdated language
- Clarify or provide more plain language
- Revise language for the new FAR framework
- Retain language necessary for governmentwide acquisition standards.

This project is referred to as the Revolutionary FAR Overhaul (RFO) initiative.

SUMMARY OF CHANGES: Part 40—Information Security and Supply Chain Security establishes a single, comprehensive framework for security requirements within the FAR. This Part eliminates the need to navigate multiple subparts and scattered provisions and clauses by consolidating information security and supply chain security requirements into one logically organized section.

- Simplified: FAR part 40 is reorganized into three key subparts:
  - Subpart 40.1 - Processing Supply Chain Risk Information (previously reserved)
  - Subpart 40.2 - Security Prohibitions and Exclusions
  - Subpart 40.3 - Safeguarding Information (previously reserved)
- Consolidated:
  - Regulatory requirements previously found at FAR subparts 4.4, 4.19 through 4.23, and 25.7 have been moved to part 40.
  - More than a dozen separate provisions (5) and clauses (9) have been merged into 4 (1 provision and 3 clauses).

Statutory requirements retained in the RFO FAR part 40 model deviation include, but may not be limited to, the following:

- 41 U.S.C. §§ 1321 et seq, Federal Acquisition Supply Chain Security Act (FASCSA)
- 41 U.S.C. § 4713, Authorities Related to Mitigating Supply Chain Risks in the Procurement of Covered Articles
- 44 U.S.C. §§ 3501 et seq, Federal Information Policy
- Pub. L. 115-91 Section 1634, Prohibition on Use of Products and Services Developed or Provided by Kaspersky Lab
- Pub. L. 115-232 Section 889, Prohibition on Certain Telecommunications and Video Surveillance Services or Equipment
- Pub. L. 115-232 Section 1758, Requirements to Identify and Control the Export of Emerging and Foundational Technologies
- Pub. L. 115-390, Strengthening and Enhancing Cyber-capabilities by Utilizing Risk Exposure Technology Act (SECURE Technology Act)
- Pub. L. 117-328 Div R Section 102, Prohibition on the Use of TikTok
- Pub. L. 118-31 Section 1823, Prohibition on Procurement of Covered Unmanned Aircraft Systems from Covered Foreign Entities

**INSTRUCTIONS:** The NSF acquisition workforce must follow the RFO part 40 and corresponding 52 model deviation text instead of FAR part 40 as codified at 48 CFR Chapter 1. The Council's RFO part 40 model deviation text is available at Acquisition.gov, under the "[FAR Overhaul](#)", and is incorporated into this class deviation.

For new solicitations or contracts, when using any provisions or clauses that have been revised, utilize the RFO model deviation language at [RFO FAR part 52](#). Do not include any of the removed provisions or clauses in future solicitations and contracts.

For open solicitations or awarded contracts, the contracting officer has discretion regarding the need to enforce or amend the provisions or clauses. Note that without some of the removed provisions or clauses, the contracting officer may be required to separately address certain aspects in the contract.

For any solicitation or contract using RFO provisions or clauses, contracting officers may include the following language:

*“System updates may lag policy updates. The System for Award Management (SAM) may continue to require entities to complete representations based on provisions that are not included in this solicitation. Contracting officers will rely on representations from offers based on provisions in the solicitation. Entities are not required to, nor are they able to, update their entity registration to remove these representations in SAM.”*

Review templates and related standard operating procedures to align with this deviation and remove unnecessary processes or steps.

APPLICABILITY This class deviation applies to all NSF procurement actions.

AUTHORITY: This class deviation is issued under the authority of EO 14275, [OMB Memo M-25-26](#), 48 CFR 1.4, and RFO FAR 1.304.

EFFECTIVE DATE: This deviation is effective as dated and shall remain in effect until it is incorporated into the FAR, or until this class deviation is rescinded, extended, or amended.

POINT OF CONTACT: Contact Raymond McCollum at 703-292-4225 or [rmccollu@nsf.gov](mailto:rmccollu@nsf.gov).
