MEMORANDUM

TO: National Science Foundation, Division of Acquisition and Cooperative Support
National Science Foundation Acquisition Workforce

FROM: Patrick K. Breen
Senior Procurement Executive

SUBJECT: FAR Class Deviation for FAR Part 11 in Support of Executive Order 14275 on Restoring Common Sense to Federal Procurement

PURPOSE: This memorandum approves a class deviation to Federal Acquisition Regulation (FAR) part 11 for purposes of implementing the Federal Acquisition Regulatory Council's (Council's) model deviation text to FAR part 11.

BACKGROUND: On April 15, 2025, the [Executive Order \(E.O.\) 14275 on Restoring Common Sense to Federal Procurement](#) was signed. Section 2 of the E.O. establishes the policy that the FAR "should only contain provisions required by statute or essential to sound procurement, and any FAR provisions that do not advance these objectives should be removed."

The FAR is being updated to:

- Remove language that is not required by statute
- Remove duplicative or outdated language
- Clarify or provide more plain language
- Revise language for the new FAR framework
- Retain language necessary for governmentwide acquisition standards.

This project is referred to as the Revolutionary FAR Overhaul (RFO) initiative.

SUMMARY OF CHANGES: FAR part 11, *Describing Agency Needs*, has been updated to ensure requirements are clear, focused on commercial standards, and do not unnecessarily limit

competition. Statutory requirements retained in the RFO FAR part 11 deviation include, but are not limited to, the following:

- 41 U.S.C. §3306(a) and 10 U.S.C. § 3206 (a): Planning and Solicitation Requirements
- 41 U.S.C. §3307 and 10 U.S.C. § 3453: Preference for Commercial Products and Commercial Services
- 15 U.S.C. § 637(d)(4)(F): Requirements related to liquidated damages

INSTRUCTIONS: The NSF acquisition workforce shall follow the RFO part 11 model deviation text instead of FAR part 11 as codified at 48 CFR chapter 1. The Council's RFO part 11 model deviation text is available at [Acquisition.gov/far-overhaul](https://www.acquisition.gov/far-overhaul) and is incorporated into this class deviation. This includes reviewing templates and related standard operating procedures to align with this deviation and remove unnecessary processes and steps.

Do not include any of the removed provisions or clauses in future solicitations and contracts. For open solicitations or awarded contracts, the contracting officer has discretion regarding the need to enforce or amend the provisions or clauses. Note that without some of the removed provisions or clauses, the contracting officer may be required to separately address certain aspects in the contract.

- For example, without contract clauses addressing variations from firm-fixed price contracts, contracting officers should consider other ways to protect

the Government by addressing variations during the contract's performance.

- Requirements for establishing delivery or performance schedules are being moved to the FAR Companion Guide. This move allows acquisition teams greater flexibility and discretion to consider techniques which are most appropriate to their acquisition. To enforce the remaining liquidated damages clauses, it is helpful to ensure a delivery schedule is clearly identified.

APPLICABILITY: This class deviation applies to all NSF procurement actions.

AUTHORITY: This class deviation is issued under the authority of EO 14275, OMB Memo M-25- 26, 48 CFR 1.4, and RFO FAR 1.304.

EFFECTIVE DATE: This deviation is effective as dated and shall remain in effect until it is incorporated into the FAR, or until this class deviation is rescinded, extended, or amended.
