SCIENTIFIC RESEARCH IS ESSENTIAL FOR CREATING HARD TECH COMPANIES

- Bringing **AI to edge devices** with ultra low power edge AI solutions
- Core technology from founders PhD work at the University of Michigan

- Enabling the **next generation of wireless communication** with AI designed chips
- Core technology from founders PhD work at UC Berkeley

UC Berkeley

- Solving the labor gap for **critical on shore manufacturing**
- Core technology inspired by founders PhD work at Case Western Reserve University

Scientific Research in **Academia and Industry** provides **foundational technologies** and the **talent** necessary for **world changing hard tech companies**

MACRO TRENDS ENABLED + ACCELERATED BY HARDTECH

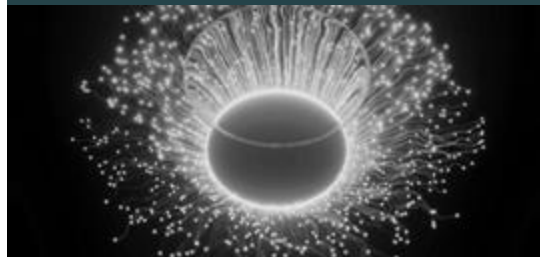

Semiconductors Drive Everything

Blue-collar Labor
Shortage is Here to Stay

Generative AI is a Great Leap
Forward in Computing

US Manufacturing Needs On-
Shoring + Friend-Shoring

Electrification is Everywhere

Life Sciences is Digitizing +
Automating
