ARLINGTON, VIRGINIA 22230

OFFICE OF THE
ASSISTANT DIRECTOR
FOR GEOSCIENCES

Memorandum

Date: 25 September 2014

To: File

From: Assistant Director for Geosciences *Roz Webb*

Regarding: Selection of Deep Earth Processes Section COV

The credibility of the COV mechanism rests, in a large measure, on the selection of credible, independent experts who are able to provide balanced and impartial assessments to NSF.

The DEP COV represented a broad segment of the disciplines consistent with the scope of activities managed through the Deep Earth Processes Section programs. The committee contained expertise in Tectonics, Petrology & Geochemistry, Geophysics, and Continental Dynamics. This diverse committee included four women and one Hispanic or Latino member, represented two non-R&D 100 institutions, represented one minority-serving institution and represented seven states and two nations (UK and Germany).

Dr. Karen M. Fischer, a current member of the Advisory Committee for Geosciences (AC-GEO), served as chair of the COV. She will report on the findings and recommendations of the COV panel at the next AC-GEO meeting (October 29-30, 2014).

There were no conflicts of interest between any COV member and Program Officers and COV members were not allowed access to any jackets with which they had a conflict or reviewed competitions for which they had served as a panellist or reviewer.

COV members present during the meeting were:

Dr. Karen M. Fischer (AC-GEO and COV Chair)
Department of Geological Sciences
Brown University

Dr. Peter J. Hudleston
Department Geology and Geophysics
University of Minnesota Twin Cities

Dr. Michael P. Poland
Geophysicist
USGS Hawaiian Volcano Observatory

Dr. Charles (Chip) E. Lesher
Department of Geology
University of California Davis

Dr. Steven M. Day
Department of Geological Science
San Diego State University

Dr. Carolina R. Lithgow-Bertelloni
Department of Earth Sciences
University College London

Dr. Calvin F. Miller
Earth and Environmental Sciences
Vanderbilt University

Dr. Anke Maria Friedrich
Geo- and Environmental Science
Ludwig Maximilian University of Munich

Dr. Edward J. Garnero
School of Earth and Space Exploration
Arizona State University

Dr. Mary L. Leech
Geosciences Department
San Francisco State University

Dr. James P. Evans
Department of Geology
Utah State University
