

# DIRECTOR'S REMARKS

## NATIONAL SCIENCE BOARD MEETING

Sethuraman Panchanathan, National Science Foundation

August 15, 2023

# UPDATES FROM THE HILL

A photograph of President Joe Biden signing a bill at a wooden desk outdoors. He is wearing a blue suit and sunglasses. A group of people, including several women in business attire, are standing around him, clapping. The President's Seal is visible on the desk. The text "CHIPS & SCIENCE ACT OF 2022" is overlaid in white, and "1 YEAR ANNIVERSARY" is overlaid in yellow.

# CHIPS & SCIENCE ACT OF 2022

## 1 YEAR ANNIVERSARY

Scaling the  
TIP Directorate Programs

Strengthening  
Research Security

Unleashing Talent and  
Energizing the Workforce

# FY2024 Budget Status

---

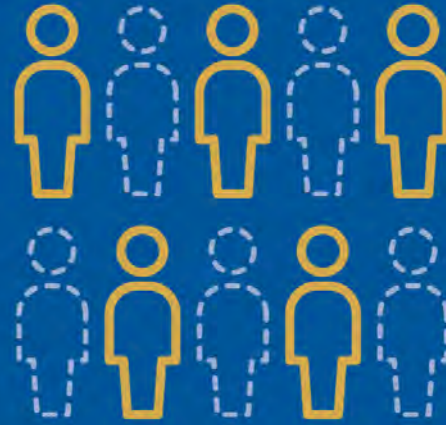

House Proposal  
**\$9.63 Billion**

Senate Proposal  
**\$9.5 Billion**

# AI LEGISLATIVE LANDSCAPE

# NSF's STRATEGIC PRIORITIES

## STRENGTHENING ESTABLISHED NSF

With **investments that expand the frontiers of knowledge and discovery.**

## INSPIRING MISSING MILLIONS

Using **capacity building and interventions** that enhance and broaden participation.

## ACCELERATING TECHNOLOGY AND INNOVATION

Through innovative, **cross-cutting partnerships** and programs.

# STRENGTHENING ESTABLISHED NSF

# NSF NANOGrav Physics Center Detects Gravitational Waves

- **NSF observatories provide first evidence ever** of low-frequency gravitational waves permeating the universe
- Discovery made by **over 190 researchers from more than 50 institutions in the U.S and abroad**
- **Provides new insights** into how galaxies evolve and how supermassive black holes grow and merge

Image Credit: Keyi "Onyx" Li / NSF; NanoGrav

**NANOGrav**  
Physics Frontiers Center

# Materials Research Science and Engineering Centers (MRSECs) Awards

- **\$162 million** total investment
- **9 centers across the country** will each receive \$18 million over 6 years
- Transform scientific breakthroughs into tangible benefits and **drive innovations that can be produced on tomorrow's factory floors**

Illinois Materials  
Research Science and  
Engineering Center

Northwestern University  
Materials Research Science  
and Engineering Center

Wisconsin Materials  
Research Science and  
Engineering Center

Center for Dynamics and  
Control of Materials

Laboratory for Research  
on the Structure of Matter

Center for Advanced  
Materials & Manufacturing

University of Washington  
Molecular Engineering  
Materials Center

Materials Research  
Laboratory  
at UCSB

Center for  
Materials Innovations  
at Michigan

THE UNIVERSITY OF  
TENNESSEE  
KNOXVILLE

## Institute for Advanced Materials and Manufacturing

- Using AI to **advance our understanding and control of quantum materials and systems**
- **Developing materials that can withstand extreme temperatures and pressure** for use in nuclear fusion and hypersonic defense systems

Image Credit: Steven Bridges/The University of Tennessee, Knoxville

# Mid-Scale-2 award to the University Corporation for Atmospheric Research (UCAR)

- **\$91.8 million investment** to design and build Airborne Phased Array Radar (APAR)
- State-of-the-art radar mounted on a plane's **exterior allows researchers to see deeper into the clouds**
- **Revolutionizes our understanding** of the formation of rain, hail, snow, and storms
- **Improve models used for weather prediction and climate projections**

A grid of 48 individual portraits of people from various ethnicities, ages, and genders, all smiling. The portraits are arranged in 6 rows and 8 columns. Overlaid on the center of the grid is the text "INSPIRING MISSING MILLIONS" in a white, sans-serif font. The entire image has a blue tint.

# INSPIRING MISSING MILLIONS

**Alina M. Piñeiro**

*NSF Graduate Research Fellow*

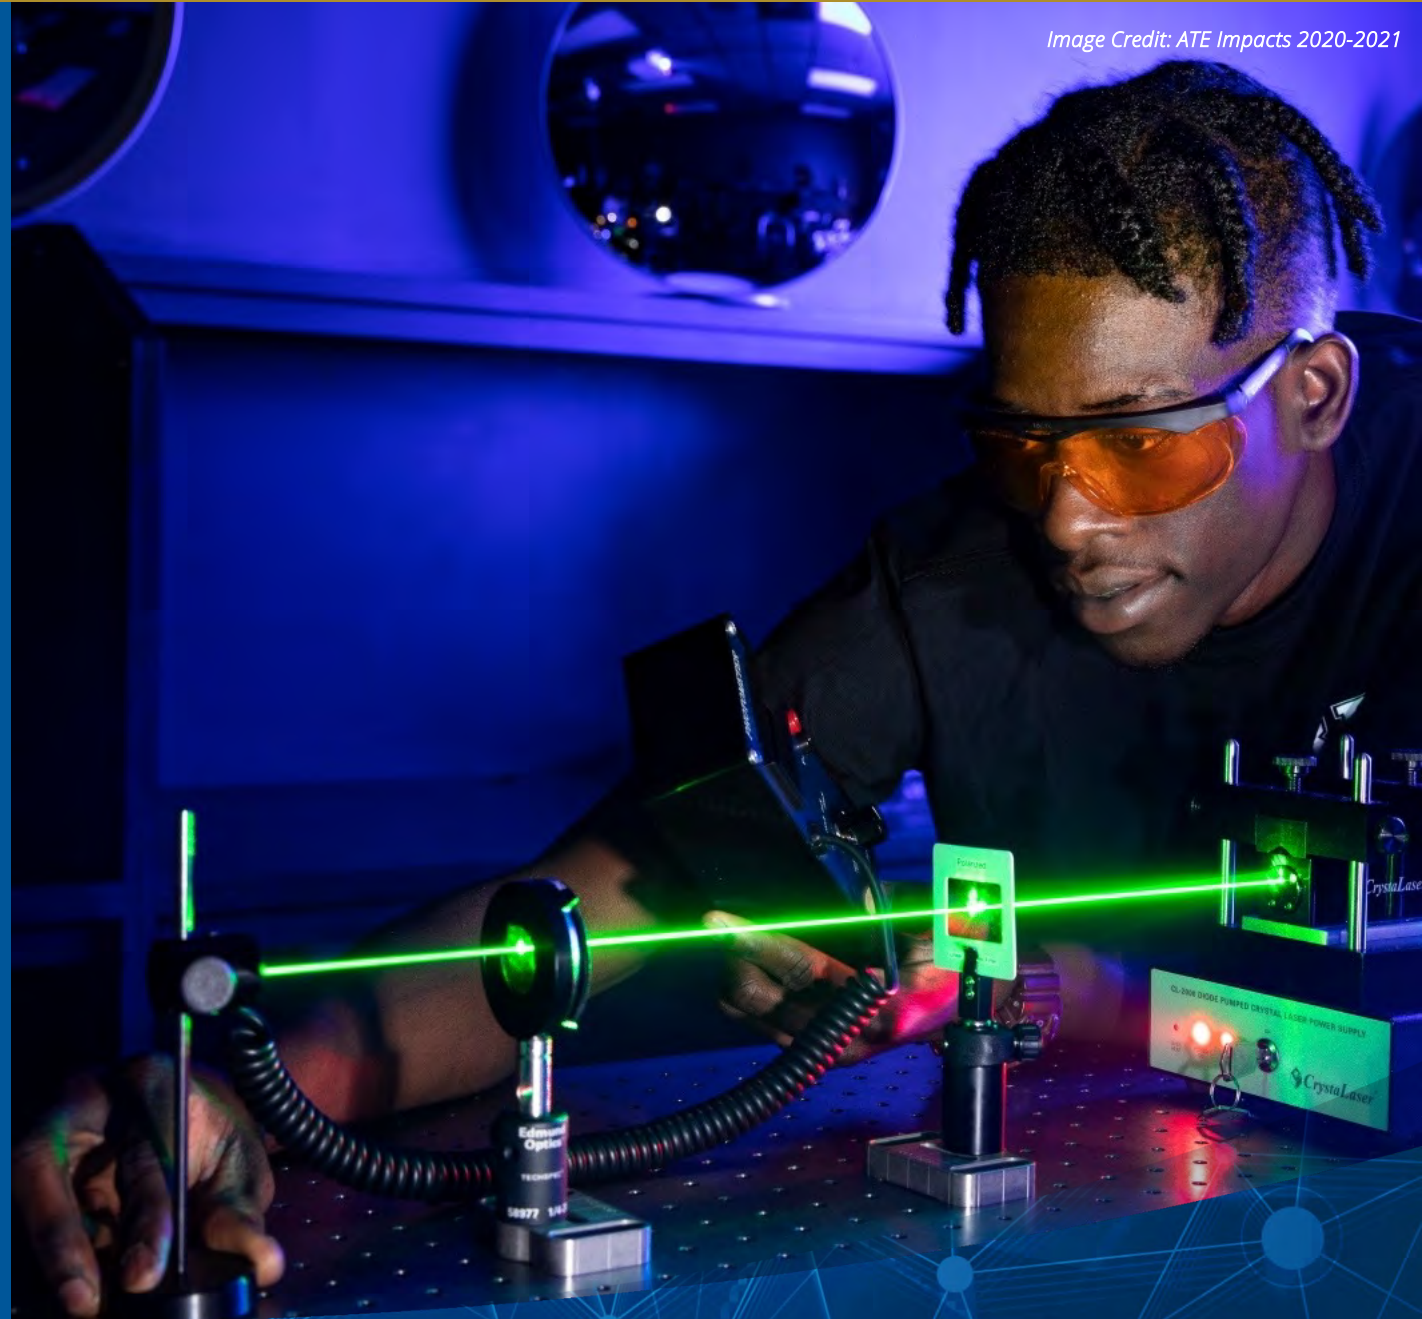

# NSF Announces new ExpandQISE Awards

- **\$38 million, 22 total awards**
  - **17 Track 1 Awards:** Individuals initiating planning for a research program in QISE, \$800,000 total for up to 3 years
  - **5 Track 2 Awards:** Team awards for 2-5 collaborators, \$5 million total for up to 5 years
- All lead Institutions are non-R1, including **6 HBCUS, 3 HSIs and 5 institutions from EPSCoR states**

Image Credit: ATE Impacts 2020-2021

# 2023 Community College Innovation Challenge Winners

- Students **develop innovative solutions to real-world problems**
- **First-place: Houston Community College, Texas**
  - For a hands-free device to assist firefighters in low visibility conditions
- **Second-place** Woodland Community College, California
- **Third-place** Feather River College, California

# ACCELERATING TECHNOLOGY AND INNOVATION

# INVESTMENTS TO IMPACTS

Catalyzed by NSF/CISE Expeditions in Computing Award

High Performance  
Computing,  
Hardware, and  
Software

**Invented  
industry-leading  
open-source  
software** such as  
Apache Mesos,  
Apache Spark,  
and Alluxio

**36 corporate  
partners** provided  
co-funding and  
real-world  
applications

**Spawned several  
start-ups** including  
Determined.ai,  
D2iQ, and  
DataBricks

7 founders with investments from over 20 NSF awards:

- **Patrick Wendell**: Worked on NSF-funded projects as **undergrad at Princeton**, received 2011 **Graduate Research Fellowship**
- **Matei Zaharia**: Received 2017 **NSF CAREER** and **PECASE** Awards
- **Ion Stoica**: PI for **12 NSF awards**, received 2002 **PECASE** Award

Creates an **open and unified platform for data and AI**,  
Surpassed **\$1B in annual revenue**,  
valued at over \$38B

databricks

Patrick Wendell

Matei Zaharia

Ion Stoica

## Databricks acquires MosaicML

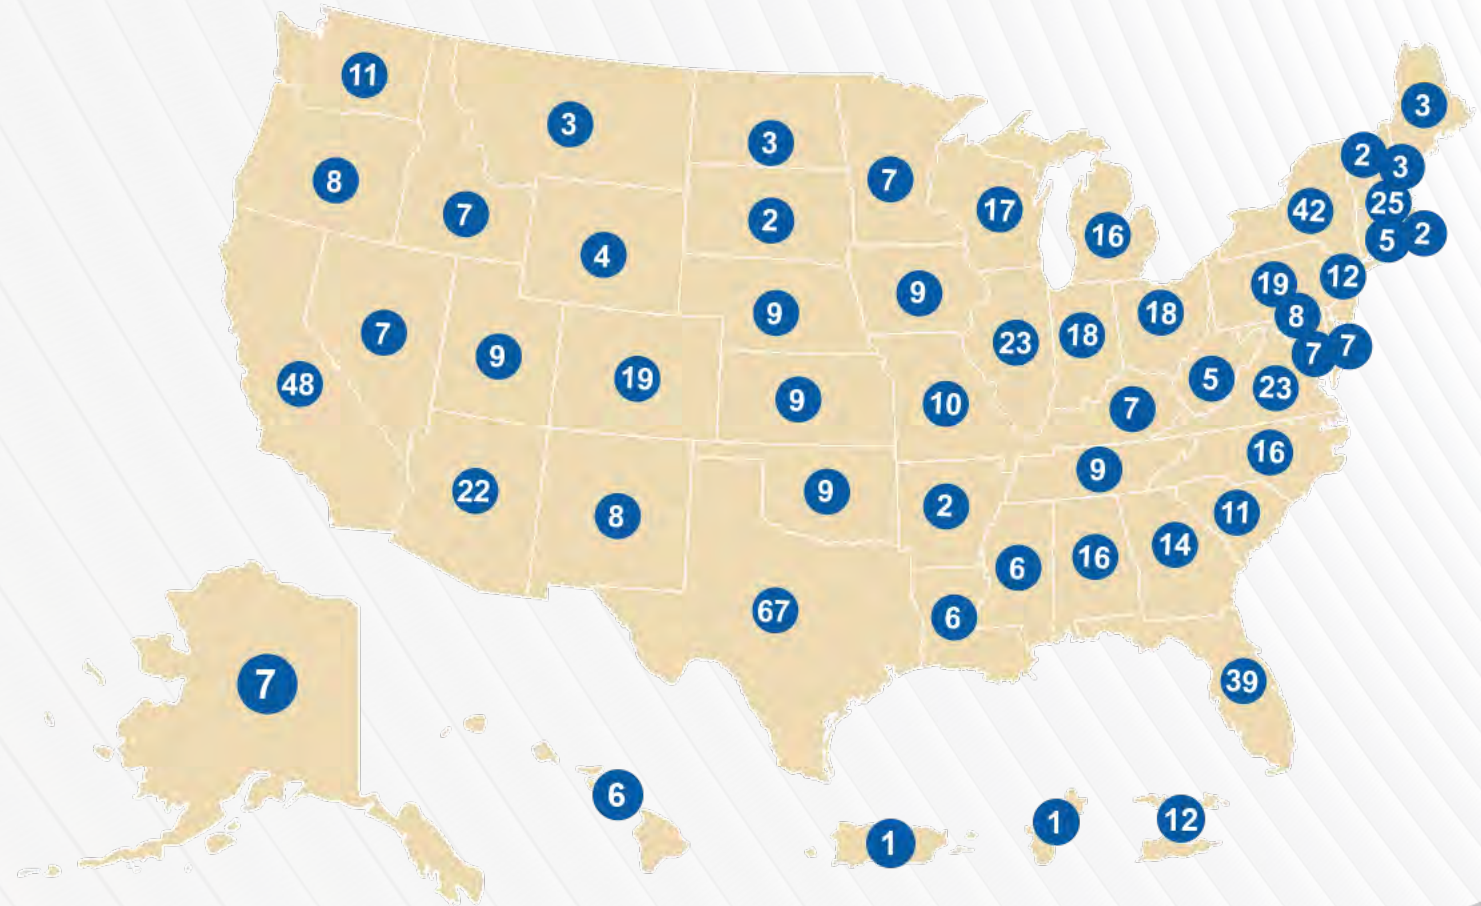

- MosaicML is a **leading generative AI platform**
- **Founding Advisor Michael Carbin received 6 NSF awards**, including NSF CAREER and Expeditions in Computing awards
- **Together they will make generative AI accessible for all organizations**, enabling them to build, own and secure generative AI models with their own data

Michael Carbin  
*Founding Advisor, NSF CAREER Awardee*

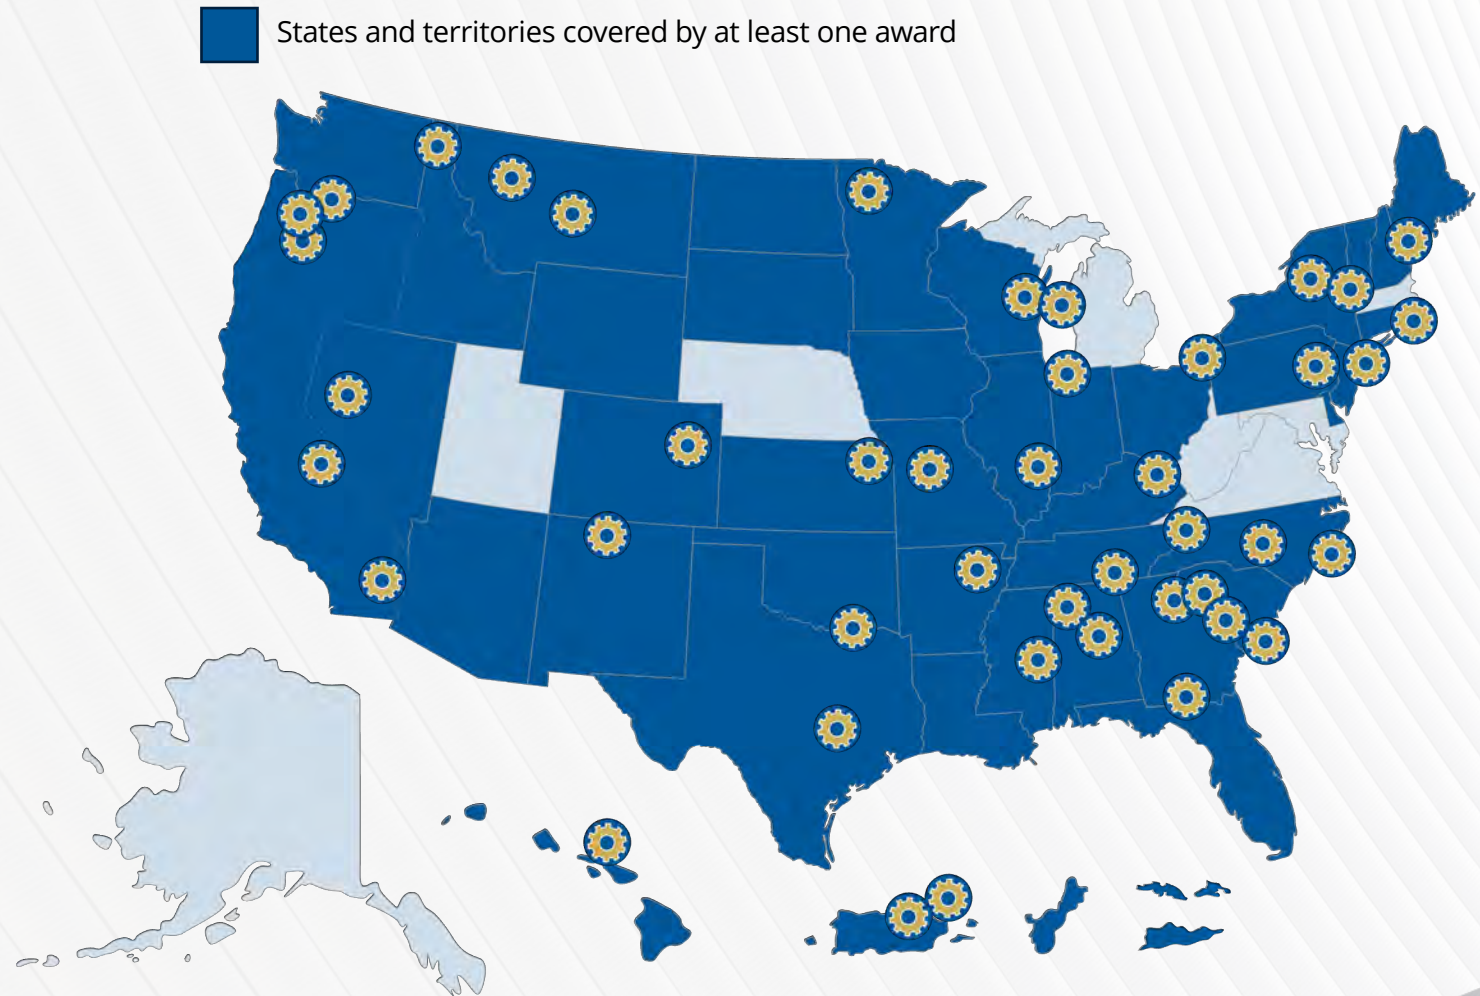

# NSF Regional Innovation Engines

- Bringing together academia, industry, government, and communities to create **crucibles of innovation**
- **Over 700 concept outlines** spanning all 50 states and four U.S. territories

## Type-1 RIE Awards

- **\$43 million** investment
- **44 Awards** across 45 U.S. states and territories
- **Establishes the connections** for building robust regional economic systems

# SmartTech Mississippi

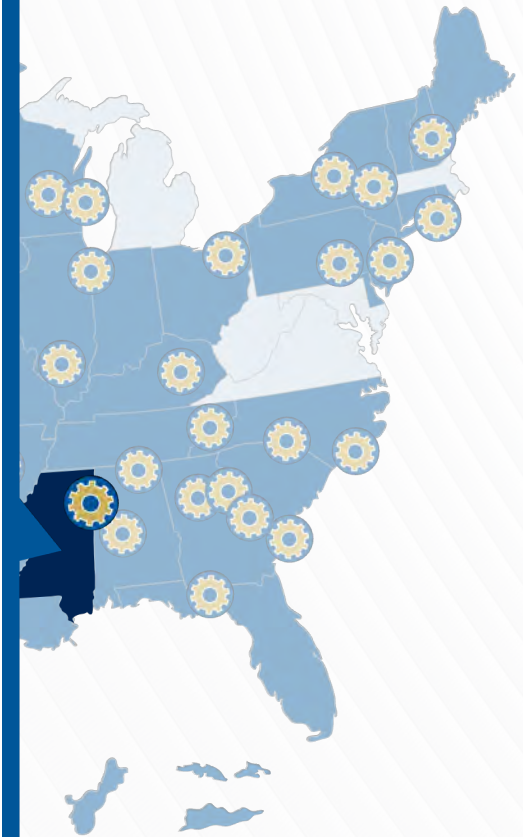

- **Led by Mississippi State University**, along with 17 partners and organizations
- Developing and deploying **smart and autonomous technologies in local manufacturing**
- Designed to develop **user-inspired research based on regional manufacturing needs**

## 2305517-NSF Engines Development Award: Advancing autonomous technologies for advanced manufacturing (MS)

Lead Institution (PI): MS - MISSISSIPPI STATE UNIVERSITY ASSURE RESEARCH & DEVELOPMENT CORPO (Jordan )  
 Award Period: 5/15/2023 - 4/30/2025  
 Award Amount: \$999,997  
 Topic: Advanced Manufacturing  
 Key Technology Areas: Advanced Manufacturing, Advanced Materials, BigData and Cybersecurity

Organization Type	Lead Organization	Subawardee Organization	Collaborator contributing resources	Other Collaborator Organization
Institution of Higher Edu.		1		
Non-Profit Organization	1			4
Other For-Profit Company		1		1
State or Local Gov. Organization			2	

### Regional Coverage:

- **16 finalists announced** to encourage teaming, diversity, and regional growth
- **Will establish robust regional innovation ecosystems**
- **Type-2 Awards**
  - \$15 million for first 2 years
  - Engine is eligible for up to \$160 million over 10 years
